

New Murata Technical Guide.

Anglia is Murata's premier distributor in the UK and the only distributor to produce a dedicated Murata Technical Guide. The latest edition contains an even more comprehensive range of products.

The guide is briefly categorised as follows:

- Capacitors - Ceramic discs, and multilayers.
- Trimmers. Inductors - General purpose and high Q/high SRF.
- Resistors - Single and multiturn trimmers.
- Resonators - Boxed, dipped, 2/3 terminal, filters and discriminators.
- Sensors - Shock, ultrasonic, temperature, gyroscopic and photo.
- Sounders - Piezo-electric transducers, ringers, speakers and sounders.
- Suppressors - Safety (mains), filter and power filter capacitors. Common mode chokes, ferrite inductors and noise filters.

With an electronic document version of the Technical Guide also available as a download from the Anglia website at www.angliac.com, this 96 page publication is the indispensable design and purchasing reference guide for Murata in the UK.
