

EFF /ETF - radial lead

Sub-miniature European fuses housed in a compact circular package. Choice of quick blow or anti-surge. Manufactured in accordance with IEC127-3 and offer good electrical stability and resistance to shock and vibration. UL94V-0 moulded body has leads on a 5.1mm pitch which allow the fuses to be soldered directly onto a printed circuit board or plugged into a pcb mounting socket, detailed separately below. Supplied loose but available taped to special order. May replace Wickmann TR5.

BUSSMANN type EFF

BUSSMANN type ETF

Quick Blow (F)

Anti-Surge (T)

Specification

Voltage rating 250Vac
 Breaking capacity..... 35A at 250Vac

Opening times ...

RATED CURRENT	TIME
150%	1 hour min.
210%	30 mins. max.
275%	10ms - 3 sec.
400%	3ms - 300ms
1000%	20ms max.
