Bourns® Networks Product Line Announces Color Change from Gold to Black on Models 4100, 4300, 4400 & 4800

Bourns® Networks Product Line announces a change in color from gold to black for [models 4100, 4300, 4400 and 4800](#). This change is effective October 1, 2007 and is a color change only. *There will be no change to form, fit or function.*

This change is necessary due to a longer lead time for the custom gold color and a cost increase of the gold-colored material.

All product in one package (tube or reel) will be one color, but as the gold inventory is depleted there could be more than one color per shipment.

For any additional information please contact:
