Product Change Notice (PCN)

October 1st, 2021

Product Change Notification for Littelfuse LSP05G and LSP05GI Module Series

To whom it may concern,

Littelfuse would like to notify you of a change related to housing material of LSP05G and LSP05GI Modules Series due to recent **LCP material shortage in the market**. To continue product production and supply, we have qualified and added **PPS1660 as an additional/alternative housing material** for LSP05G and LSP05GI Module Series.

Item	Current	Additional/Alternative
Housing Material	LCP KB40M 40%GF	PPS1660. GF45

According to our thorough qualification test, the additional/alternative housing material will maintain current product's original electrical parameters, mechanical/dimensional specification, quality, reliability, performance, and part number. Qualification test report is available upon request.

This new material will be used for production starting from **November 1st, 2021**.

Please see attached the affected part number list and respond to us by **October 15th, 2021** to acknowledge this product change notification. If we do not hear from you, we will expect that this change notification has been accepted and no further action is required.

Thank you.

Best Regards,
Johnny Chang
Product Manager
Littelfuse, Inc.
