Select Bourns® Model MG, MH and MU Series Ferrite Beads Reactivated

Riverside, California – June 29, 2022 – In 2013, a list of Bourns® Ferrite Bead MG, MH and MU Series part numbers were discontinued due to a lack of sales volume and diminishing demand. However, requests for diverse ferrite bead products to solve challenging electromagnetic interference (EMI) have been increasing recently. As a result, Bourns has reactivated select part numbers of the Model MG, MU Series High Impedance Ferrite Beads and Model MH Series High Current Ferrite Beads, all of which are now available for order. A list of available part numbers and their Minimum Order Quantities / Multiples (MOQs / Mults) are listed below.

Reactivated Part Numbers	MOQ	Mult
MG3261-151Y	3000	3000
MG3261-301Y	3000	3000
MU3261-101Y	3000	3000
MU3261-102Y	3000	3000
MU3261-121Y	3000	3000
MU3261-221Y	3000	3000
MU3261-300Y	3000	3000
MU3261-301Y	3000	3000
MU3261-471Y	3000	3000
MU3261-600Y	3000	3000
MU3261-601Y	3000	3000
MU3261-750Y	3000	3000
MU3261-801Y	3000	3000

Reactivated Part Numbers	MOQ	Mult
MH4516-600Y	2000	2000
MH4516-750Y	2000	2000
MH4516-800Y	2000	2000
MH4532-121Y	1000	1000
MH4532-131Y	1000	1000
MH4532-132Y	1000	1000
MH4532-151Y	1000	1000
MH4532-800Y	1000	1000
