

Date 6/Jan/2023

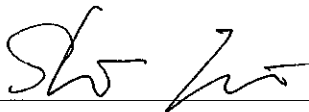

Dear Valued Customer,

Notice of "Not Recommended for New Designs"

We appreciated your continued patronage and interest in Panasonic's Products.
This is Notice to inform you of NRFND as below.

[Detail]

About this Notice and Reason	Aluminum Electrolytic Capacitors Surface Mount Type V-FKS are not recommended for new designs. We have decided to invest our resources into expanding our FN series with better specifications and line up (voltage and capacitance). •Low demand for FKS series. •V-FKS and V-FN are similar spec.
Affected Models	See attached file
Effective date	As soon as possible (no LTB at this time)
Replacements	See attached file
