2. Reason for the Change

The thickness of the terminal insert stop section will be enlarged to improve ease of assembly and increase the terminal stop strength.

3. Details of the Change

The shape of the contact stop will be changed.

NOTE: Other contact sections, quality, etc., will remain unchanged.

4. Differences Resulting from the Change

There are no differences in electric performance, mechanical performance, quality or compatibility.

5. Schedule for Implementing the Change

The change is scheduled to be phased in from production lots of December, 2009.

Please note that during the changeover period (of approximately 3 months) there may be a mixing of new and old product lots. We regret any inconvenience that this may cause.

6. Your Consent

We kindly ask that you let a Hirose Electric account representative know whether you consent to this matter by November 30, 2009.

In the absence of a response by the aforementioned date, please understand that products that have been changed according to the content of this notice will be delivered.

Please feel free to contact a Hirose Electric sales representative for any clarifications.
