

Public Products List

Public Products are off the shelf products. They are not dedicated to specific customers, they are available through ST Sales team, or Distributors, and visible on ST.com

PCN Title : STPMIC1 datasheet change: AMR maximum voltage

PCN Reference : AMS/21/13045

Subject : Public Products List

Dear Customer,

Please find below the Standard Public Products List impacted by the change.

STPMIC1CPQR	STPMIC1DPQR	STPMIC1BPQR
STPMIC1APQR	STPMIC1EPQR	

IMPORTANT NOTICE – PLEASE READ CAREFULLY

Subject to any contractual arrangement in force with you or to any industry standard implemented by us, STMicroelectronics NV and its subsidiaries ("ST") reserve the right to make changes, corrections, enhancements, modifications, and improvements to ST products and/or to this document at any time without notice. Purchasers should obtain the latest relevant information on ST products before placing orders. ST products are sold pursuant to ST's terms and conditions of sale in place at the time of order acknowledgement.

Purchasers are solely responsible for the choice, selection, and use of ST products and ST assumes no liability for application assistance or the design of Purchasers' products.

No license, express or implied, to any intellectual property right is granted by ST herein.

Resale of ST products with provisions different from the information set forth herein shall void any warranty granted by ST for such product.

Information in this document supersedes and replaces information previously supplied in any prior versions of this document.

From: **STMicroelectronics**

Dear Sir

On behalf of STMicroelectronics and with reference to PCN AMS/21/13045 issued in October 2021, related to the datasheet AMR maximum voltage, we would like to inform you that:

- i. this PCN is just intended, in accordance to ST Quality policy, to introduce a guard band versus the actual AMR of the related used silicon technology process AMR (Absolute Maximum Rating) voltage values reported in datasheet in order to better guarantee the robustness of the products;
- ii. this PCN is not intended to change wafer/dice/silicon/package already in production;
- iii. both EWS and Final test screening in production and SW/HW will not be modified;
- iv. the datasheet AMR maximum value is modified to 6.5V from 7V;
- v. once the PCN is issued, the STPMIC1x parts delivered will be the same as before.

Sincerely

Giuseppe Lisi
ST Microelectronics
Power management Quality Manager
