Dear Customer

We have been advised by Titan Opto the following design change is being applied to the part numbers shown below with immediate effect. The reason for this change is to improve the PCB placement process where optical inspection is used. No electrical or mechanical change so form, fit and function are not affected.

Anglia operates a strict FIFO system in our Distribution Centre facility, therefore it may take some time for this change to filter through to customer deliveries of the below part number(s).

Please make the relevant person(s) in your organisation aware of this change.
