

Date: April 28, 2023

PCN Reference: LFPCN230428

Implementation date: May 1st, 2023 – already in place at some warehouse locations

Subject: Inner box packing Label update for Medium Power modules

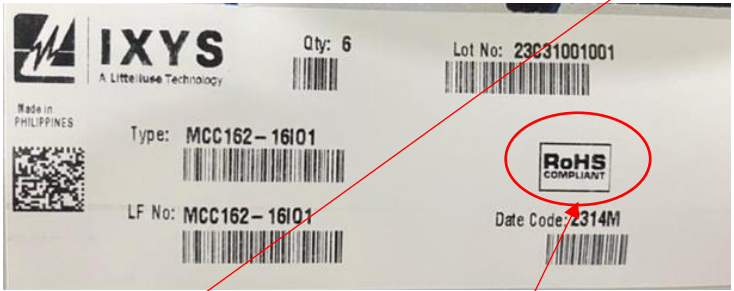

To whom it may concern,

Littelfuse would like to notify you about implementing inner packing box label change for its **Medium Power Modules** built in our different assembly locations.

To harmonize the marking, we will remove Pb-Free marking which is not relevant to all our products portfolio and will only show up a “RoHS compliant” logo which is appropriate to all our power modules.

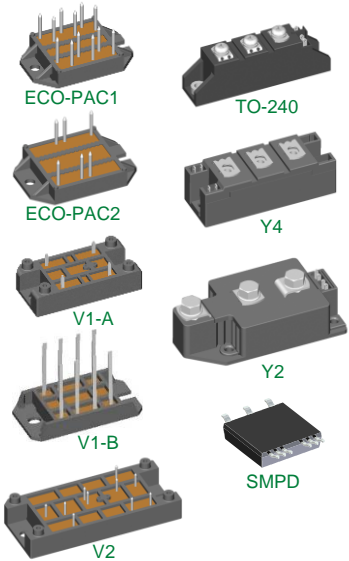

There is no change to fit, form or function of the existing products as the change refers to packing box labelling only.

Please note the change has been implemented by the different warehouses one after the other. No label change will be done on parts already in the field or shipped until the full implementation date.

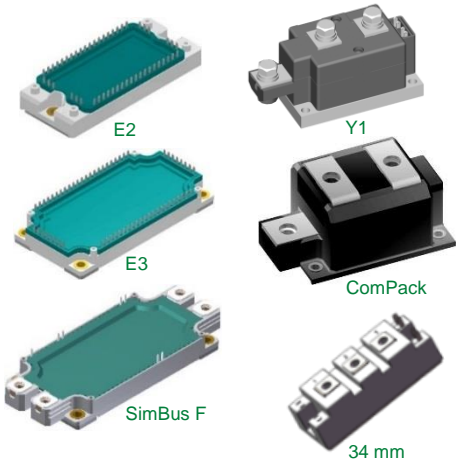

Type of label	Inner packing box
Before	
After	 <p data-bbox="651 1814 906 1845">Pb-free logo removed</p> <p data-bbox="1016 1814 1224 1845">RoHS logo added</p>

Medium Power Modules packages family

DCB based

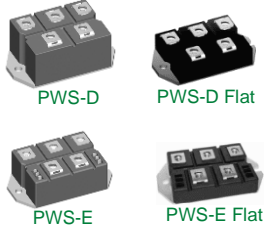

Copper based
