

February, 2021

Dear Customers

**[Notification] Silicon RF product high power Module (RA Series) materials change**

Thank you for your great efforts on SiRF business.

With the discontinuation of production of component parts (PCB, capacitors), we will change the materials used for the corresponding 13 model names (as below table).

We apologize for the inconvenience caused on your customers, and your fully understanding and support would be highly appreciated.

Sincerely

Note

1. Applicable Products: RA30H/RA33H/RA60H/RA80H Series

2. Name of 13 models to be changed (as below table(1) )

- We do not change the name of the models/part numbers.
- There are no changes to the contents of the delivery specifications and reliability.
- We may be going to revise the price due to the cost increase of alternative materials.
- We will make a running change.

2-1. Timing for the Change Validation (sample availability)

- Characterization confirmation : January, 2022
- Reliability confirmation : April, 2022

EOM
