- The hexagonal screw has been improved to allow to use either an hexagonal key or a standard screw driver

Groove for screw driver

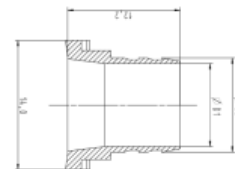

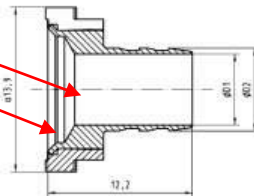

- The hexagonal screw will have a number printed inside to help in case of sorting needed between M3 , UNC4/40...

- Crimp Flange will be monobloc made of plated copper instead of the actual one made of 2 parts including Zamak base and plated copper tube . It avoids safely the crimp flange to fall apart during crimping operation .
