Object : Introduction of an upgraded cell (higher efficiency, 0.972mm pitch)

Design change : Internal silicon size change due to cell pitch change (from R3.0 0.942mm to R3.5 0.972mm)

Influence on reliability : None

Remarks : Due to cell pitch change

- A slight silicon size change.
- A slight electrical performance change (Imax, Vmax, Pmax may change slightly within 3%. In most cases the values will be higher or same thanks to higher cell efficiency).
