[Details of applicable model]

From the moment the relays will be produced at the automatic line, the product codes and descriptions remain the same. So if you want to receive products produced by the new automatic line, you can use the current code as you are used to right now.

But when you want to have delivered the manual produced types during the approval stage, please be aware you have to order the G5Q-1A-XXX BY OMZ (M) from May this year for the regular types. The -EU types will be available from July this year.

Please check the product line up here below:

Change gradually from Manual line product to Automatic production			Manual line product from May.1st.2014 ("-EU type" available from July.1st.2014)
