

Product Change Notification

Date: August 19, 2013
To: Eaton Electronics PowerStor Supercapacitor Customers
Subject: PowerStor B, PB Series Label Color

Eaton Electronics is making a cosmetic change to the labels of its B and PB Series of PowerStor supercapacitors. The B and PB Series labels are changing from a black shrink wrap to a blue shrink wrap with the lot code information printed in black ink.

This change is cosmetic only and has no affect of the size, form, fit or electrical properties of the B and PB Series products.

Any inventory that may be in stock is still saleable and should not be returned.

The table below details the specific B and PB Series part numbers and the effective dates of this cosmetic color change to the shrink wrap label material.

Part Number	Active Date
B0510-2R5224-R	Beginning with date codes W34, approximately August 19, 2013.
B0510-5R0104-4
