Date : 2009.06.09

Please be informed that Hitachi will change some parts of the following product you are currently purchasing.

1. Products

Part Name	• LMG7420PLFC-X
	• SP14N01L6VLCZ • SP14N01L6VLCA • SP14N01L6ALCZ • SP14N01L6ALCA
	• SP14N001 • SP14N001-ZZA • SP14N001-Z1 • SP14N001-Z1A
	• SP12N002
	• SP12N001-T

2. Content of Change

Item		Current	New
IC M signal Generator	Part Name	MN53003HEB	IT7001M
	Maker	Matsushita Electric	ITE Technology Inc.

3. No Impact on Product Specification

All the electrical characteristics and power consumption are the same, Moreover, the reliability test are equivalent to current level.(New Mcount IC is using in other KHE products.)

4. Reasons of Change

The maker of Mcount IC (Matsushita) announced to phase out the components, we are forced to change it.

5. Schedule

The mass production of above mentioned products will switch to new components from July, 2009. There is the possibility of mixed shipment with current components and new components during initial stage of changing. The new product will be identified with reversion. (refer to below list)

Product Name	Rev.		Switch Date
LMG7420PLFC-X	B	C	July '09~
SP14N***	A	B	Aug '09~
SP12N001-T	C	D	Aug '09~
SP12N002	B	C	Aug '09~

Please do not hesitate to contact with us if any inquiries.
Thank you for your understanding.
