Date :2009.09.16

Please be informed that Hitachi will change some parts of the following product you are currently purchasing.

### 1. Products

Part Name	• LMG7420PLFC-X
	• SP12N002
	• SP14N01L6VLCZ • SP14N01L6VLCA • SP14N01L6ALCZ • SP14N01L6ALCA
	• SP14N001 • SP14N001-ZZA • SP14N001-Z1 • SP14N001-Z1A

### 2. Content of Change

Item		Current	Alternative controller
Controller IC	Part Name	T6963CGF	RA6963
	Maker	TOSHIBA	RAIO Technology Inc

### 3. No Impact on Product Specification

All the electrical characteristics and power consumption are the same, Moreover, the reliability test are equivalent to current level.

### 4. Reasons of Change

In order to keep our commitment for long-term & stable display supply, the two compatible controller, T6963CFG and RA6963, will be applied on the products as above mentioned alternatively

### 5. Schedule

The mass production of above mentioned products will switch to new components from Dec.'09. There is the possibility of mixed shipment with current component and new component during initial stage of changing. The new product will be identified with reversion. (refer to below list)

ITEM	T6963CFG (TOSHIBA)	RA6963 (RAIO)	Start from
P/N			
LMG7420PLFC-X	Rev C	Rev D	Dec 2009~
SP12N002	Rev C	Rev D	Dec 2009~
SP14N***	Rev B	Rev C	Mar. 2010~

Please do not hesitate to contact with us if any inquiries.

Thank you for your understanding.
