

PRODUCT CHANGE NOTICE

Package Surface Texture Change for Intersil ODFN Packaged Products

**Refer to:
PCN09009**

Date: February 11, 2009

February 11, 2009

To: Our Valued Intersil Customers

Subject: **Package Surface Texture Change for Intersil ODFN Products -**
Dominant Semiconductor Malaysia

This notice is to inform you that Intersil is changing the surface texture/appearance of the ODFN (Optical Dual Flat No-Lead) packaged products assembled at the Dominant Semiconductor Malaysia (DSM) facility. The package appearance is changing from a *mirror* (smooth/glossy) finish to a *matte* textured finish. The *matte* texture results in a more robust exterior finish and reduces the tendency of the package surface to scratch or blemish. Examples of the *mirror* (Figure 1) and *matte* (Figure 2) packages are included for reference.

Products Affected:

ISL29009IROZ-T7	ISL29015IROZ-T7	ISL29101IROZ-T7
ISL29012IROZ-T7	ISL29020IROZ-T7	ISL29102IROZ-T7

The Dominant Semiconductor Malaysia (DSM) facility is ISO 9001:2000 and ISO/TS 16949 certified. There will be no change in the package outline drawing (POD), moisture sensitivity level (MSL), nor any change to the product electrical or optical performance. The change is merely cosmetic in nature, and involves no change to the materials or processes used to manufacture the products.

Product affected by this change is identifiable via Intersil's internal traceability system.

Intersil will take all necessary actions to conform to customer requirements and to ensure the continued high quality and reliability of Intersil products being supplied. Customers may expect to receive product having a *mirror* (smooth/glossy) finish as well as the new *matte* textured finish beginning *ninety* days from the date of this notification or earlier with approval.

If you have concerns with this change notice, Intersil must hear from you immediately. Please contact the nearest Intersil Sales Office or call the Intersil Corporate line at 1-888-468-3774, in the United States, or 1-321-724-7143 outside of the United States.
