Subject: **Wafer Fabrication Site Change for Listed Intersil Products**
Palm Bay, Florida

This notice is to inform you that Intersil is qualifying Intersil's Palm Bay, Florida facility for wafer fabrication of the listed C5 technology products. The change in wafer fabrication site is necessary as the current fabrication facilities (Yamaha and XFAB) have notified Intersil that they intend to discontinue manufacturing this technology. The site-specific process technology qualification activity is in progress and scheduled to complete December 15, 2013. The subsequent product evaluation activity is scheduled to complete in stages from December 15, 2013 through June 1, 2014.

The Intersil Palm Bay, Florida facility is an ISO 9001:2008 and ISO/TS 16949:2002 certified wafer fabrication facility. The product and site qualification plans are designed using JEDEC and other applicable industry standards to confirm there is no impact to form, fit, function, or interchangeability of the product. A summary of the qualification plan is included for reference. The qualification results will be available for review upon completion by request. The remainder of the manufacturing operations (package assembly, package electrical testing, shipment, etc.) will continue to be processed to previously established conditions and systems. The ICP Test Report for the Palm Bay fabrication facility is located on Intersil's Environmental web site under Material Sub-Group: "Silicon"; Material "die" and the PDF file is titled Intersil Corporation.

Intersil will take all necessary actions to conform to agreed upon customer requirements and to ensure the continued high quality and reliability of Intersil products being supplied. Customers may expect to receive product manufactured from either the current or the newly qualified site beginning ninety days from the date of this notification or upon successful completion of qualification activities.
