The form, fit, function, and country of origin of the affected part numbers will remain the same. Traceability will be maintained through lot code and date code. The quality and reliability of the affected inductors should be improved as a result of the process change.

Samples are available upon request. Bourns recommends that customers test the affected part numbers in their specific applications for verification of satisfactory performance.

Implementation dates are as follows:

Date that deliveries of products manufactured with new inspection process will begin: **April 15, 2025**
First date code using the above changes: **2516**

If you have any questions or need additional information, please feel free to contact [Bourns Customer Service/Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
