1. Purpose

This document is to announce the Epoxy Seal update of selected part numbers for 8600 series.

2. Overview

C&K components, as design and manufacturing company switches, is constantly looking to improve the manufacturing means and processes in order to continue serving its customers with the highest performance level.

Supply chain for epoxy “995F” is constrained due to discontinuation from source vendor.
Consequently, new epoxy “E101-2” shall be implemented as replacement.

3. Impact of Change and Qualification

3.1 Impact of Change: There is no change to the form, fit and function of the switch.

3.2 Qualification method: Testing has been performed to confirm no change to product Fit or Function; however, the new epoxy to be implemented has matte finish appearance instead of glossy finish.
