

Date : 2024.3.4

Dear Sirs & Madams,

Please be informed that the following technical changes will be implemented to the products you are currently purchasing.

## 1. Content of change

Item	Current	New
Tcon IC	Himax (P/N: HX8861-G)	Himax (P/N: HX8861-K)

## 2. Product

Part Name	Revision				Implement schedule
	Current		New		
TX26D202VM0BAA	Renesas + HX8861-G	C	Rohm + HX8861-K	D	Q2 2025
	Rohm + HX8861-G	D			
TX26D202VM0BYA	Renesas + HX8861-G	A	Rohm + HX8861-K	B	
	Rohm + HX8861-G	B			

## 3. Reason of Change

3-1) Current Tcon IC (Himax, HX8861-G) is discontinued, the replacement (Himax, HX8861-K) has been sourced and qualified to ensure the continuity of our product supply.

3-2) LED driver and PCBA will be consolidated to sustain the production efficiency.

## 4. Impact on Product Specification

4-1) LED driver change (from Renesas to Rohm) does not impact backlight dimming behavior.

4-2) Tcon IC change does not impact timing of driving the display.

In short, product specification and optical performance remain unchanged.

## 5. Schedule

Implementation timing (Q2 2025) is estimated. The actual cut-in lot may be changed with the varied demand and the consumption of current components. There will be a running change during the transition until the current Tcon IC is used up. Exact introduction will be provided in the future notice.

In case of further questions, please contact your sales representative. Thank you.
