**Subject : New Assembly Equipment for Littelfuse High Voltage 885 Series SMD fuses**

To increase the assurance of supply on the Littelfuse high voltage 885 series SMD fuses, we will be adding new production/assembly equipment for these fuses.

Below are the **affected 885 series part numbers** which will go through the new equipment;

- 0885001.DR, 08851.25DR, 088501.6DR, 0885002.DR, 088502.5DR, 08853.15DR, 0885004.DR, 0885005.DR

**When is the target implementation?**

This will be a running change. We will start shipping fuses by the new equipment from 1-Feb.-2024.

All 885 Series fuses produced from this time, can either be built from the existing equipment or this new equipment.

**Validation report for fuses build by new machine**

Please see attached.

Should there be further clarifications or concerns re: this, please contact your local Littelfuse Sales Office or Product Management Team to help you.

Best regards,  
Daniel Wang  
Director Global Product Management
