EIC-1102-3 Production Hold Notification for selected Littelfuse Power Solid State Relays

To Our Valued Customers,

Under PCN EIC-1102 Littelfuse communicated in April 2022 the transfer and consolidation of the assembly and test process of selected products.

The qualification of the following parts has been successfully completed and the production resumed

CPC1998J	CPC1727J	CPC1909J	CPC1968J
CPC1709J	CPC1779J	CPC1918J	CPC1979J
CPC1718J	CPC1788J	CPC1927J	CPC1988J

Nevertheless, due to production challenges causing low yield, the qualification of the remaining parts is still undergoing. Littelfuse is committed to delivering quality products and will therefore release parts only when the highest standards are reached. The following parts are affected:

CPC1708J	CPC1967J
CPC1777J	CPC1977J
CPC1786J	CPC1978J
CPC1908J	CPC1986J

We are not yet in a position to provide an exact resolution date, but based on current estimations, further details should be available within the upcoming 15 weeks.

This notification is for your information. We value your business and look forward to assisting you whenever possible.

If you have any other questions or concerns, please contact your local Littelfuse sales representative or Product Manager below for further assistance.
