Subject: New PCB Vendor for POLY-FUSE[®] Surface Mountable PPTC Device

As part of business contingency plan, Littelfuse is going to add one more PCB source for POLY-FUSE[®] Surface Mountable PPTC products including devices from 0402L, 0603L, 0805L, 1206L, 1210L, 1812L, 2016L, 2920L, 3425L and Low Rho series. The new PCB factory is well established in terms of both quality control system and operational daily management, it had passed Littelfuse on site audit based on Littelfuse quality management procedure.

This change will have no impact on product specification, functionality, and long-term reliability, but the appearance color of the devices will be slightly different from existing parts. Please refer to below pictures for a comparison:

Color of Existing Part Black	Color of New Part Brown
