

Information Letter Number: 223901**Date:** 27.07.2023**Title:** Manufacturing Transfer to Sensirion-owned Production Site in Debrecen, Hungary**Product Identification:**

Order number	Material description
1-101053-01	SFM3300-250-D

Reason for Change: Design Production Capacity Logistics Manufacturing Location Quality/Reliability Upgrade**Change Description:**

The production line is relocated from Sensirion Stäfa (Switzerland) to Sensirion Debrecen (Hungary). The production building in Stäfa (Switzerland) reached its capacity limits. The production site in Hungary generates space for further growth. It is ISO9001 and ISO14001 certified since 2021 and is an active and approved production site for Sensirion gas flow products since Q2/2021.

Change includes:

Local personnel. The Process and Quality Engineers got full training in Stäfa (Switzerland) before the transfer. The training took place on the same production line that will be relocated to Debrecen (Hungary).

No change of:

- No change of form, fit and function of the product
- No change of supply chain and direct materials used
- No change of production equipment (especially no change of calibration equipment: equipment is transferred)
- No change of process flow, control plan, process release procedures and criteria, nor any other process documentation. **Exceptions are work instructions, that are translated to Hungarian language.**
- No change of production software. **Exception are GUIs, which are translated to Hungarian language.**

Address of Debrecen site:

Sensirion Hungary Kft
Nagy Mihaly Utca 3
4031 Debrecen
Hungary

Identification Method to Distinguish Change:

- The country of origin of the product will change: visible on every order confirmation and invoice
- Implementation of change can be traced by week code in Serial Number (yywwxxxx)

Quantifiable Impact on Quality & Reliability:

- The parts and materials are not affected by the transfer, so there is no impact of reliability. The quality is guaranteed by same process control plan as used until now.
- Additionally, all parts from the pilot run in Debrecen were re-validated.

Conditions and Logistics**Customers within the EU:**

Sensirion AG in Switzerland remains your contractual partner. Debrecen (HU) is a pure production site. Therefore, no deliveries to companies in Hungary are possible. Shipments to the EU (except Hungary) are possible.

For legal regulations connected to VAT rules, Incoterms will change from FCA, Stäfa (CH) to DAP with your location within the EU. The logistics costs will be charged transparently and separately from the product price. German customers will additionally receive the invoice with 19% German VAT.

Customers outside of the EU/ Rest of World:

Sensirion AG in Switzerland remains your contractual partner. Debrecen (HU) is a pure production site. Incoterms will change from FCA, Stäfa (CH) to FCA, Debrecen (HU).

Estimated Implementation Date*: Production release in Debrecen (HU) took place in July 2023, but sensors will be delivered from Stäfa (CH) until the stock is depleted. Change of logistics and conditions will thus occur in Q4 2023 and will be visible in the order confirmations and invoices emitted by Sensirion.

** The Estimated Implementation Date is the forecasted date that a customer may expect to receive changed product. This may be affected by fluctuations in supply and demand.*

Sensirion Contact: Your existing contacts remain in charge, no change of contacts in connection with the production transfer.
