Reason of Change:

- Technical requirement
- Customer requirement
- Quality improvement
- Change of production process/logistical changes
- Location of production moved
- Other: new firmware introduction

Description of change:	<p>We, Telit Cinterion, would like to inform you about the availability of new ordering codes with firmware release 25.30.xx9 Modem M0F.xxxxx8 for the LE910Cx ThreadX-based product series.</p> <p>The new ordering codes listed in the table above comply with the requirements of EU RED Delegated Act on Cybersecurity (Commission Delegated Regulation (EU) 2022/30), commonly known as “RED Cybersecurity requirements”.</p> <p>Release notes are available on Telit Cinterion website or via the Technical Support team.</p> <p>Telit generally recommends using the latest firmware version. For this reason, ordering codes of ThreadX-based variants with FW release 25.30.xx8, M0F.xxxxx7 or previous versions are not recommended for new designs (NRND).</p> <p>For any further questions, please feel free to contact your local FAE Team.</p>
-------------------------------	--

Schedule details:	New ordering codes are available for orders.
--------------------------	--

Quality assurance measurements:	The new version fulfils all internal test requirements according to our Quality Management process and philosophy.
--	--

If you have any further question about the present communication, please contact Telit Technical Support or your Regional Sales Representative.
