Announcement of IFT Rank Marking Additional on Toshiba Photocoupler Actual Product

Dear Our Value Customer,

We would like to express our congratulations on your continued prosperity and sincere gratitude for your continued patronage of our semiconductor products.

Regarding our semiconductor photocoupler products that your company is currently using,

Due to the discrepancies between the description of technical data and the IFT rank marking symbol, we have corrected it as shown below.

Thank you for your patronage.

Sincerely yours,

– Details –

1. Target Products

- ① TLP267J (\*\*\*(T                      ② TLP268J (\*\*\*(T  
 (Manufactured by Toshiba Semiconductor (Thailand) Co., Ltd.)

\* Please refer attached sheet

2. Background

Regarding the above target product, we found that the marking on the actual product did not match the IFT rank symbol as described in the technical data. Therefore, we will match the IFT rank symbol following the actual product marking as described in the technical data. The other markings of the product and electrical characteristics are not changed.

**[Discrepancy contents between technical data description and actual product marking]**

<Trigger LED Current (IFT)>

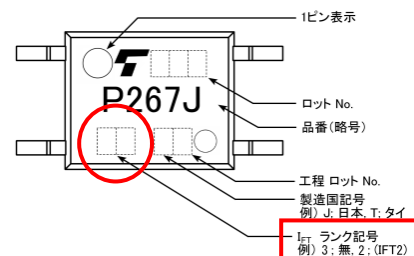

No Rank Product: The rank identification symbol on the product should be "3" ← the actual product identification: "3" does not exist (mismatched)

IFT2 Rank Product: The rank identification symbol on the product should be "2" ← the actual product identification: "2" (Matched)

表 トリガーLED電流ランク (注) (特に指定のない限り, T<sub>a</sub> = 25 °C)

ランク	IFTランク記号	測定条件	トリガーLED電流 I <sub>FT</sub> (最小)	トリガーLED電流 I <sub>FT</sub> (最大)	単位
無	3	V <sub>T</sub> = 6 V	—	3	mA
(IFT2)	2	V <sub>T</sub> = 6 V	—	2	

注: 製品品番を指定する場合, 品番と分類名称を組み合わせてください。  
 製品適用例: TLP267J (IFT2)  
 ただし, 安全規格認定のための品番申請は標準製品品番を使用してください。
