| Title / short description | Change of the pliers from a screw joint to a push-through joint |
| Affected article category | Tools |
| Change category | Form and appearance |
| Change number | CBH200008-00 |
| Reason for PCN/PDN Revision | |

Purpose/objective of the change

The MICROFOX ...ESD pliers with screw joint will be replaced with the version with the push-through joint.

Detailed description of the change

Due to the change in production capacities caused by material bottlenecks, the MICROFOX ...ESD pliers with screw joint will be changed over to the version with the push-through joint on short notice. The new versions are characterized by permanent stability and optimum distribution of force. The technical scope of performance remains unchanged; the dimensions will change slightly. The new item version will be indicated by an increase to the production batch on the label.

Identifying characteristics

Batch designation on the label (packaging)

| | | | |
