| <b>Reason for PCN/PDN Revision</b> |                                  |

### Purpose/objective of the change

Due to CE guidelines for connectors, specified installation notes must be enclosed with the CE-required product for Pcs./Pkt.

### Detailed description of the change

From now on, in accordance with the CE directives, specified installation notes are enclosed as a folded A6 sheet in the packaging of every item that complies with the Low Voltage Directive (LVD: starting at 50 V AC or 75 V DC) and that, as such, also receives a CE marking. These installation notes are translated into nine other languages. See also the attached installation notes. The V/C is increased in accordance with the label attachment.

### Identifying characteristics

The changed products can be determined based on the production batch in the item list.
