Product Change Notice – HS25-50 – new tooling

To whom it may concern,

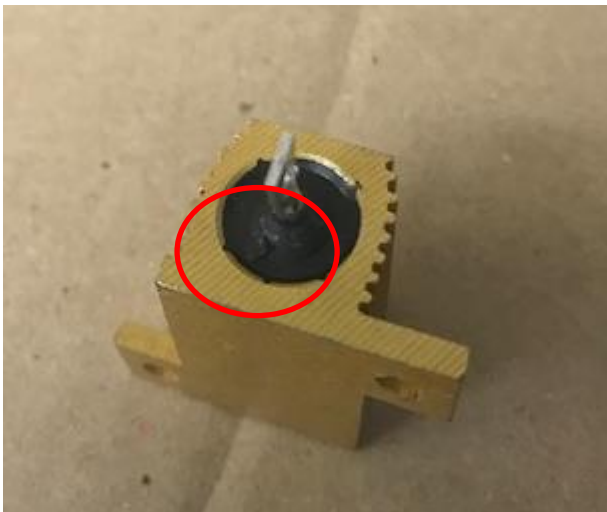

ARCOL UK Limited are notifying their customers that a difference in appearance maybe noticed on the resin face.

The changes are due a process change in moulding and do not adversely affect form / fit or function of the part. This is a visual change only affecting the shape and position of the resin feeder.

This will not affect all HS25 -HS50, only the batches which are moulded with the new tooling.

HS25 – 50 current – above

HS25 - 50 - moulded using new tooling
