Bourns® Model 3852 and 3856 Series Industrial Panel Controls

Life Cycle Specification Change

Effective immediately, Bourns is making a change to the life cycle specification of the [Model 3852 and 3856 Series Industrial Panel Controls](#). The current life cycle of the two series, specified at 50,000 cycles, will be reduced to 20,000 cycles due to an updated performance assessment.

This life cycle change will impact the function and reliability of the product, as the the expected life is reduced, but will not have any effect on the form or fit of the products. A list of affected part numbers is listed on the following pages.

Implementation dates are as follows:

Date that manufacturing of existing products will cease: ***Immediately***

Date that deliveries of modified products will begin: ***March, 2019***

If you have any questions or need additional information, please feel free to contact [Customer Service/ Inside Sales](#).
