

## Product Change Notification

### INDUCTIVE COMPONENTS

January, 2017

## Certain Bourns® Model PM and SRP Shielded Power Inductor Series

### *Change to Marking Method and Marking Information*

Bourns is changing the marking method and adding the manufacturing date code to certain Model PM and SRP Shielded Power Inductor Series. The marking method is changing from semi-automated ink-stamping to automated ink-jet marking to help increase production efficiency. The manufacturing date code (YYWW) will also be included on the component to provide traceability (examples below).

The form will change due to this marking modification. The fit, function, quality and reliability are not affected.

*Existing Marking*

*Revised Marking*

Affected Model Series		
PM1038S	PM13560S	SRP1040
PM12639S	PM13656S	SRP1235
PM12645S	PM13666S	SRP1250
PM12651S		SRP1270

*(A complete list of affected part numbers is shown on the following page.)*

Implementation dates are as follows:

*Date that manufacturing of existing product marking method will cease: **July 22, 2017***

*Date that deliveries of products with new marking method and marking will begin: **July 23, 2017***

*First date code using the above changes: **1730***

If you have any questions or need additional information, please feel free to contact [Customer Service/ Inside Sales](#).
