<b>Description of change:</b>	<p><b>Update of timeline and ARN numbers to previous PCN 738.</b> As previously informed Thales will introduce minor modifications on Java embedded platform. The implemented change improves the directory path access check of internal flash file system, which can store application-specific data or data needed for customer Java applications, TLS and OTAP functionality. All changes are not approval relevant and done on application layer only. Following new application revision number (ARN) will be introduced L30960-N3300-B100: <b>ARN 00.001.37</b> L30960N-3300-A200: <b>ARN 01.001.08</b> RN and SW are ready for download. For more details pls contact TS team.</p>
<b>Availability</b> of modules ex THALES DIS AIS Deutschland warehouse:	CW 36 Note: during a short overlap period we might ship remaining modules from stock with previous sw.
<b>Timing note:</b>	If Thales does not receive a notification to the contrary within a period of 6 weeks, Thales assumes that the customer agrees to the change.

<b>Quality assurance measurements:</b>	The new version fulfils all internal test requirements according to our Quality Management process and philosophy.
