24th June 2015

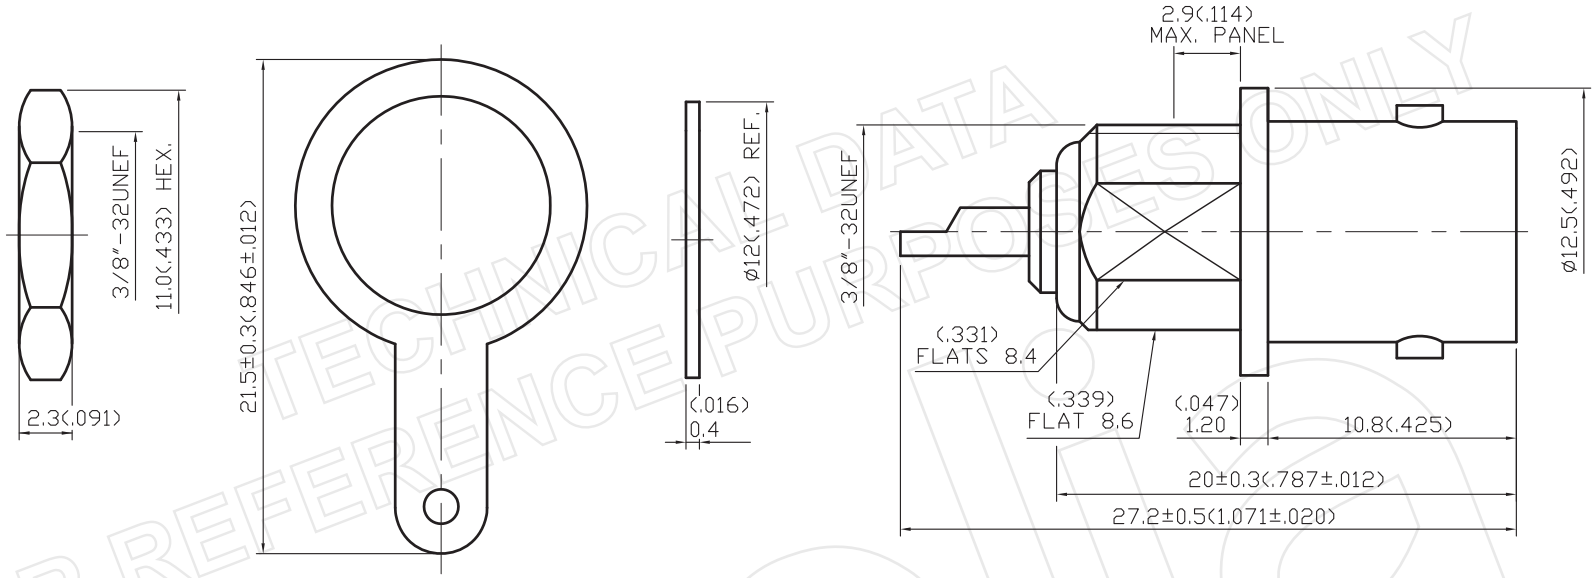
Dear Customer,

We have been advised by our supplier Co-Tron the following design change is being applied to Anglia part number 630002 with immediate effect. The reason for this change is to improve production efficiency.

The new design for the BNC bulkhead receptacle has some minor dimension changes which should not affect the form, fit and function of the connector. All materials used on the new design are either the same or enhanced specification and grade as the old design. Full data is attached showing both products so your engineering team can approve the new design.

Anglia operates a strict FIFO system in our warehouse facility therefore it may take some time for this change to filter through to customer deliveries. Please ensure this information is circulated to the relevant persons within your organisation to prevent any disruption in the supply chain of the above product.

Yours Sincerely
Anglia



GROUNDING TAB	BRASS	1	NICKEL
WASHER	BRASS	1	NICKEL
NUT	BRASS	1	NICKEL
WASHER	BRASS	1	NICKEL
INSULATION	TEFLON	1	NONE
