

April 21th, 2017

To: Valued Customer

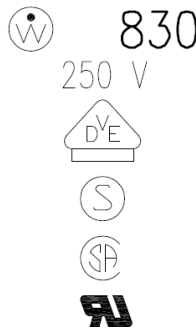

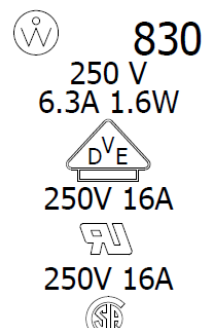

From: Littelfuse Product Management

Subject: LFPCN41263.-830 tooling update

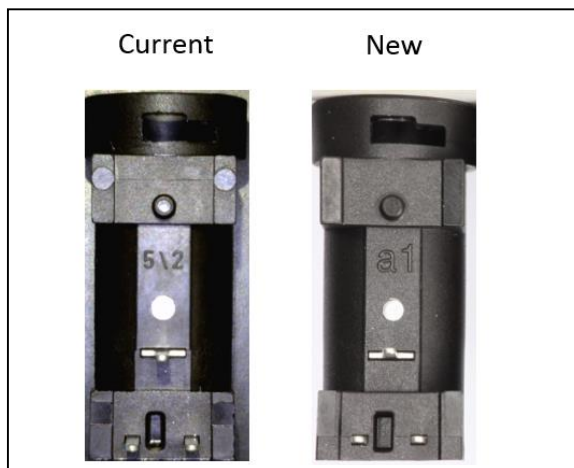

Littelfuse Product Management would like to inform you due the tooling is coming to its end, we are taking the advantage and doing the upgrade on the new one.

There is no change in form, fit or function. We are consolidating IEC certifications with VDE.

The changes are:

	Current	New
Cavity number format	5/2	a1
Demoulding marks on the body. (bottom view)	4	Eliminated
Injection point (top view)	Square	Round
Body Marks		

Bottom view

Top view

The Affected part numbers are:

83000000005

83000008155

Please contact your local Littelfuse Sales Office should you need further assistance.

Best regards,

Ben Zheng
