Subject: Marking Improvement for MHP-TAT and MHP-TAC Products

Description of Change:

To better serve customers, we decide to add temperature indicator for MHP-TAT and MHP-TAC series products to easily distinguish different temperature as shown in below pictures. This change does not affect product form, fit and function. This will be running change. You may receive both products with or without temperature indicator in the transition period before our current inventory is consumed.

If you would like to have more information, please contact Littelfuse local sales representatives.

MHP Series	Part Description	Temperature Indicator	Before	After
MHP-TAT18 Series	MHP-TAT18-9-72(N)	72		
	MHP-TAT18-9-77(N)	77		
	MHP-TAT18-9-82(N)	82		
	MHP-TAT18-9-85(N)	85		
	MHP-TAT18-9-90(N)	90
