**LF PCN# A0145 MINI/ATO Diode Fuses: change of diode component supplier**

January 24, 2018

Dear Valued Customer,

Littelfuse would like to notify you of the change of the supplier of our diode component used in the MINI/ATO Diode products from Vishay to SURGE manufacturer. **This change is mandatory due to Vishay obsolescence of the components used in Littelfuse MINI/ATO diode product design and we have no access to additional Vishay diodes.** SURGE components meet all Littelfuse quality and performance standards. No change is made to the design of the product, so the change of the supplier will not impact Form, Fit or Function of the material.

Littelfuse will implement this as a running change, so you can expect to receive product with the SURGE component by:

June 10<sup>th</sup>, 2018 for the 1000V product.

September 3<sup>rd</sup>, 2018 for the 400V product.

***Impacted Materials***

<b>02400103Z</b>	Diode - ATO, 1500 pc
<b>02400104P</b>	Diode - MINI 1A/400V 2000 pc
<b>02400110P</b>	Diode - MINI 1A/400V 2000 pc
<b>02400113P</b>	Diode - MINI 1A/400V 2000 pc
<b>02400119P</b>	Diode - MINI 1A/400V with Resistor Body
<b>02400115P</b>	Diode - MINI 1A/1000V, 2000 pc

Please contact your local Littelfuse representative if you have any additional questions. We will be pleased to answer any questions you may have. Thank you for your continued support.

Best Regards,

*Aram Tamez*
