### Announcement of New Specifications for TGS2610-D00

Dear Figaro Distributors,

Let us inform you that we are now ready to implement the new specification of our LP gas sensor TGS2610-D00.

Since our announcement in August 2017, we have been working to switch to the new specification. For more information on the announcement, please refer to the attached file.

Please refer to the attached Product Information, Technical Information, and Application Notes of the new version.

The new specification will be implemented with all the shipments subsequent to manufacturing lot number 922T.

We are still working to switch to the new specifications for methane sensor TGS2611-E00. We will inform you when exact starting lot numbers are identified.

Should you have any questions, please do not hesitate to contact us.
