Title / short description	FL SWITCH 2000/FL NAT 2000: Firmware update to Revision 3.00
Affected article category	Industrial communication technology
Change category	Software modification
Change number	CDN200087-

Purpose/objective of the change

Firmware update for extended scope of functions.

Detailed description of the change

Extension of user management with improved rights assignment. This is now available without an additional SD card on all devices that support the MRP Manager function. Introduction of the option to roll out topology-based IP addresses. For details, see the firmware release note. All FL SWITCH 2xxx and FL NAT 2xxx variants already delivered can be updated with FW 3.00 from the e-shop. Firmware 3.00 is expected to be available for download from the e-shop beginning in January 2021. (Note: This PCN does not include any externally recognizable product change.)

Identifying characteristics

These devices will be delivered with a factory-installed firmware revision 3.00.
