

Product change notification (PCN)

Title / short description	Inline housing change (all Inline items with a housing width of 48.8 mm)
Affected article category	SPS and I/O systems
Change category	Form and appearance
Change number	CDR200036-00

Purpose/objective of the change

Improvement of the Inline housing (width: 48.8 mm). Increases the breaking strength of the latching mechanism

Detailed description of the change

The connection bridge between the latching mechanism and electronics housing will be widened. This change increases the breaking strength of the latching and has no other effect on the housing mechanics. The adjusted items will be fully compatible with their previous revisions. The hardware/firmware versions will remain unchanged; the item revisions will be increased respectively.

Identifying characteristics

Lot increase on packaging

Start of Production (SOP)	-	Last Time Delivery (LTD)	-
