

Product change notification (PCN)

Title / short description	RFC/NFC 480S, RFC 4072S, NFC 482S - Hardware revision increase due to an optimization of the uninterruptible power supply (UPS).
Affected article category	SPS and I/O systems
Change category	Material
Change number	CDR200091-00

Purpose/objective of the change

Optimization of the uninterruptible power supply (UPS) to the PLCs.

Detailed description of the change

The UPS circuit for safeguarding the residual data will be optimized and improved. This will lead to a hardware revision increase. This PCN illustrates how this change will be identified on the packaging and on the rating plate using the item RFC 4072S as an example.
