4797 and 4798

IEC connector series with V-Lock cord retention and enhanced glow wire resistance as standard features

Product

Series 4797 and 4798 are now equipped as standard with the V-Lock cord retention feature and are made of the new material, whereby the components meet the increased glow wire tests according to IEC 60695-12 and -13.

Technical Information

Data sheets of types [4797 \[1\]](#) and [4798 \[2\]](#) have been updated. The new features are indicated accordingly. The changes on the products are documented in the Product Change Notifications (PCN).

Availability

Per today, February 14th 2017, all versions of types 4797 and 4798 delivered ex stock SCHURTER AG are delivered in the new version.

Prices

The prices for all variants including the new features remain unchanged.

If you have any questions please do not hesitate to contact us.
