## Maxwell BOOSTCAP® Axial D-Cell Based Modules Packs – Last Purchase Opportunity Extension

---

*This end of life notification is issued to document and describe a specific product transition for your attention. Please review this end of life notification carefully and take the appropriate actions per Maxwell's recommendations. If you have any questions please, contact your designated sale representative for support.*

Notification Date: 16 October 2009  
Effectivity Date: 31 January 2009

### Reason for changes:

Changes in mechanical specifications and delays in cell delivery have delayed customer qualification of the radial D-cell part intended to replace the existing axial part. Additionally, for modules, the replacement part, BMOD0058 E016 B02, release has been delayed until the end of December 2009. To give customers time to qualify the new parts, the last buy date is being extended.

### Description of changes:

The last buy date for existing cells, modules and packs is extended from October 30, 2009 (per End of Life Notice dated 26 June 2009, updated 6 July 2009) to January 31, 2010. All products listed in the table below in the "Existing" column can be ordered through January 2010.

### Revised Schedule

Last time, non cancellable order	January 31, 2010
Estimated Last Delivery Date	June 30, 2010
Replacement Parts	June 30, 2012*
Technical Support	June 30, 2015

After these dates, Maxwell will do its best to accommodate any additional demand but cannot guarantee availability of supply. \*Estimated date depending upon last shipment date.
