Request for discontinuation of Snap-In type of Aluminum Electrolytic Capacitor

Dear customers,

We would like to first express our appreciation for your valued business and ongoing loyalty over the years. We pride ourselves on providing the best products on the electrolytic market today and look forward to continuing to offer high quality capacitors for many years to come.

We have been enjoying supplying our products to industrial and consumer applications as one of all-around Aluminum Electrolytic capacitor manufactures. However production and sales for some parts of our capacitors has been getting smaller in recent years, even though we have tried to strengthen our products and service, because of reduction of usage by the digitalization and decrease of demand by changing to ceramic capacitors. In addition, we are facing discontinuation of some material and aging machines.

It becomes more difficult and severe to continue production and sales under such conditions.

Last year, we kindly asked you to understand our situation and accept the discontinuation of production and sales for some parts of our products. Since some of the other products are in same situation, we ask once again to you to accept another discontinuation.

We are supplying more valued products and better service to customers mainly with surface mount type (V-type) of Aluminum Electrolytic Capacitor, conductive polymer Hybrid Capacitors and conductive polymer aluminum Solid Capacitors (OS-CON).

<Object Panasonic Part Number>

Snap-In type

All series, customized items and special terminal type

< Schedule of Termination >

Last time buy : **End of March, 2015**

Final Shipment : **End of June, 2015**

We sincerely appreciate your understanding and cooperation on this matter

Please kindly contact your Panasonic counterpart if you have any further questions or requests.

Sincerely yours,

Hiroshi Ono

Product Change Notification

TO _____

Issued by:
 Panasonic Industrial Devices Malaysia Sdn, Bhd.
 Electrolytic Capacitor Business Group

Approval	Check	Issue
<i>[Signature]</i>	<i>[Signature]</i>	<i>[Signature]</i>

Product	Aluminum Electrolytic Capacitors
Part number	· All part number of Snap-in type of Aluminum Electrolytic Capacitors
Estimated changing date	Last time buy (LTB): 31/Mar/2015 Last time shipment (LTS): 30/Jun/2015
Revised category	<>Design <>Parts / Materials <>Inspection / Test <#>Others (Products EOL)
Contents for change	<p>■EOL of Snap-in type of Aluminum Electrolytic Capacitors EOL part number EET***** EER***** ECEC***** ECEL ***** ECES***** ECET***** ECE3***** ECOS*****</p> <p>*All of the part number starting from the above 3 or 4 characters</p> <p>■Schedule Please kindly accept our LTB schedule as the follows. ·LTB 31/Mar/2015 ·LTS 30/Jun/2015</p>
Reason for change	Due to sales volume getting smaller, increasing severe price competition and increasing of material cost,it is difficult to keep our production.

Reply

*Please give us reply by the end of September 2014.

Date / /

Signature	Receiving Dep.

1.Status of use
 (a. In mass production b. ceased production c. after-sales service)

2.Examination result
 (a. will stop using b. will order for LTB)

Comments

※If you will order for LTB, please let us know your necessary quantity by the 30th of September , 2014
 Cautions 1) The term of validity of products is two years from product shipment.
 Cautions 2) Please let us consult separately about the delivery method for the final order.
