Attn.: To Whom It May Concern

HIROSE ELECTRIC CO., LTD.

5-23, OSAKI 5-CHOME, SHINAGAWA-KU, TOKYO, JAPAN

**Notice of Sales Consolidation of FPC Connector FH19 (S) C Connector Series
to Nickel Barrier Gold Plating Connectors**

Hirose would like to take this opportunity to thank you sincerely for your support, and we hope this letter finds you well and prosperous.

We are writing today to inform you that we will consolidate the sales of FH19(S) C connector series to nickel barrier gold plating connectors as follows. Thank you for your understanding in advance.

1. Sales restricted connectors and connector series after sale consolidation

◆ Sales restricted connector series

FH19C-**S-0.5SH(05)

FH19SC-**S-0.5SH(05)

◆ Connector series after sales consolidation

FH19C-**S-0.5SH(10)

FH19SC-**S-0.5SH(09)

* Number of terminal pins

* There is no difference in electric performance between the existing products and the products after consolidation. See attached product explanation document for product specifications.

2. Reason

The fully gold plating specification will be changed to nickel barrier gold plating specification, in order to prevent non-conformance resulting from solder/flux rise associated with diversified mount conditions at customers.

3. Implementation date

We now accept orders for FH19(S) C series with nickel barrier gold plating (09) / (10).

The sale of fully gold plating types will be terminated as of March 31, 2017.

We will announce you the detail of last-buy process in separate form.
