Hirose Electric Co., Ltd.

Request for Sales Consolidation to the FPC Connector FH26W Series in the
Partial Gold Plating with Nickel Barrier Specification

We sincerely appreciate your continued patronage.

Hirose Electric would like to inform you that the sales of the products listed below will be consolidated to the FH26W series products in the partial gold plating with nickel barrier specification.

We apologize for the inconvenience, and appreciate your understanding and cooperation.

1. Series whose sales will be limited and series to which sales will be consolidated

◆Series whose sales will be limited

FH26-**S-0.3SHW (05)
FH26J-**S-0.3SHW (05)
FH26W-**S-0.3SHW (05)
FH26-**S-0.3SHW (10)
FH26J-**S-0.3SHW (10)
FH26W-**S-0.3SHW (10)

** : Number of contacts

◆Series to which sales will be consolidated

FH26W-**S-0.3SHW (60)
FH26J-55S-0.3SHW (60) (Note)

Note: The 55pos products are manufactured as the FH26J series due to variation-related reasons.

The electrical performance is the same as that of conventional products. For product specifications, please refer to a separate product description material.

2. Reason

To prevent the occurrence of defects caused by solder or flux wicking, in response to the recent diversification of our customers' mounting conditions.

3. Date of implementation

The partial gold plating with nickel barrier specification products (60) for the FH26W series have already been ready for order. The sales of the full gold plating with nickel barrier specification products will be terminated at the end of March 2017.

The details will be informed later.
