

09 May 2008

Dear Customer

Due to severe supply problems with the following ranges of Eurohm resistors we have had to take the regrettable decision to discontinue these ranges with immediate effect.

The discontinued ranges are detailed below and the closest available alternatives are shown where possible.

Discontinued Eurohm Range	Closest alternative Eurohm range
910xxx series	017xxx series
911xxx series	002xxx series
912xxx series	047xxx series
913xxx series	no alternative available
914xxx series	no alternative available

Alternatives shown are closest available matches, please make your engineering teams aware so they can check suitability for your application. If you require samples and data for the suggested alternatives please contact Anglia's sales desk.

We still have some stocks on the above discontinued Eurohm series which are available on a first come first served basis however we are unable to secure further stocks once this stock is exhausted so it is critical you let us know your requirements ASAP.

Please note this discontinuation does not effect any other Eurohm resistor ranges.

Yours Sincerely
Anglia
