

Dear Customer,

We have been informed by Ceramate Technical Co., Ltd that with immediate effect they have discontinued their 5mm diameter Varistor (GNR05D series). Ceramate are recommending their 7mm diameter Varistor (GNR07D series) as a replacement, the critical dimensions such as lead pitch and lead diameter remain the same so no board changes should be required.

We still have some stocks on the GNR05D series which are available on a first come first served basis but we will be unable to secure further stocks once this stock is exhausted so it is critical you let us know your requirements ASAP.

Samples and data are available now for the recommended replacement GNR07D series, please contact our sales desk if you require samples or data.

Yours Sincerely  
Anglia
