

Information Letter Number: 221501/b**Date:** 29.04.2022**Title:** New Name and Change of SDP Evaluation Kit**Product Identification:****EK-P5 (1-101602-01) becomes SEK-SDP8xx****Reason for Change:** Design Production Logistics Manufacturing Location Quality/Reliability Upgrade**Change Description:**

Sensirion changes the product evaluation of differential pressure sensors, SDP8xx, and add them to the successful SensorBridge systematic with flexible add-on sensors.

So the existing EK-P5 goes EOL (see separate information).

The SEK-SDP8xx will replace the EK-P5.

Main Difference: The connection cable for the sensor is replaced. The new cable can only be used with the Sensirion SensorBridge (3.000.124).

Old Evaluation kits, EK-P5, can still be used with the Sensirion USB Viewer software.

Further Information will follow.

Identification Method to Distinguish Change: n/a**Samples:** available will be available in not applicable**Quantifiable Impact on Quality & Reliability:**

n.a.

Estimated Implementation Date*: 18th May 2022

** The Estimated Implementation Date is the forecasted date that a customer may expect to receive changed product. This may be affected by fluctuations in supply and demand.*
